

DR. GIFFORD IS HOLY NAME UNIT SPEAKER SUNDAY

Fifteen new members were received into the Holy Name society of St. Francis Xavier Catholic church Sunday evening at ceremonies held in the church.

The Rev. Fr. Joseph K. Bradley, assistant pastor at the church, officiated at the service. Those obligated included William Rosenblatt, Howard McClellan, Donald Myers, Lawrence Eckert, William L. Meals, Jr., Joseph Hess, Carl Keller, Richard Redding, Arthur J. Roth, Donald Weaver, Samuel DeSimone, George Miller, Vincent Rosetti, Franz Martin and Robert C. Redding.

The Rev. Fr. Michael Kennedy, of the faculty of Mount Saint Mary's college, delivered the sermon for the church service. "The Holy Name Society is designed to fill the petition of the Lord's Prayer, 'Hallowed be Thy Name,'" he noted. As members you are obligated to avoid disrespect for the name of God, of Jesus and of holy things, and should abstain from all improper language, blasphemy, perjury, cursing, profane and indecent expressions. And you should receive God frequently in Holy Communion, at least monthly, with the organization. By your example you can lead others to greater respect for His name."

Step Toward Socialism

One hundred and fifty members attended the church service and a meeting followed the service held in the social rooms of St. Francis Xavier school.

Dr. Roy W. Gifford, associate surgeon at the Warner hospital here and public relations chairman for the county medical society, spoke on "The Other Side of Socialized Medicine."

Termining "state medicine the first step in the attempt of the socialists to make this a socialistic country," the local doctor asserted. "It is in medicine that they have the best opportunity."

Following In Britain's Steps

"Everyone has been ill, everyone sympathizes with the ill. And the result is that the socialists, who know what they are doing, are attempting to put across socialized medicine as the entering wedge for a completely socialistic state."

"We have the example of Britain before us, and they are about 25 years ahead on the path we are following. In 1906, the British socialists, realizing that they could get nowhere as socialists, decided to take over one of the major parties. They chose the Labor party and they were successful. The same thing is happening here. The socialists were not able to make progress as socialists. So they chose to work their way to control of one of the major parties. It could have been the Republican party as easily as the Democratic party, but they chose the Democrats, and they are proving as successful as they were in Britain."

"The socialism of Britain is called Fabian socialism, peaceful socialism, and the same pattern is being followed here. But not six months ago one of the leaders of the British socialists noted that things are not going well, and remarked that 'if we cannot achieve in Britain our aims by peaceful means, we must have a blood bath.' And when it

EX-PRISONER OF USSR TO SPEAK

A former prisoner of the Russians will be the speaker at the Adams County Youth for Christ rally Saturday evening, April 1, in the Memorial E. U. B. church, West High street, at 8 p. m. He is the Rev. James A. Stewart, director of the European Evangelistic Crusade, which has its headquarters in Buffalo, N. Y. He is a native of Scotland.

Rev. Mr. Stewart was imprisoned at Androssy Ula No. 60, the same detention center in which Cardinal Mindzenty was held prisoner before his trial. After questioning and torture, Rev. Stewart escaped and hid in a Catholic convent for three weeks, and from there made his way to the American military zone in Germany.

In addition to the talk by Rev. Stewart, there will be music at the rally in the form of accordion solos by Mrs. Orville Faust of Biglerville.

Last Saturday's rally was attended by 114 persons. Earl Shultz, director of the Hampstead Youth for Christ in Maryland, was the speaker. Music was furnished by Miss Barbara Prush, also of Hampstead.

SOIL DISTRICT STAFF BUSY ON CONTOUR WORK

For the past ten days members of the Adams county soil conservation district have been working in the county planning and laying out contour orchard work, making pond surveys, running a timber cruise and surveying for drainage ditches.

Initial layout for contour orchard work was begun on the William Lott farm, Ralph Tyson farm, and Mrs. Eva Pape fruit farm, all of Gardners, R. 1. About 100 acres have been previously placed on contour on the Pape farm, and plans for contouring a remaining 11 acres have been formulated.

An orchard was laid out on contour on the Garnet Coble farm, Aspers R. 1, in conjunction with a pond survey, which has been computed and drawn up. Plans for the actual pond construction await more favorable weather. Assistance in contouring and pond surveying was given by John Dattilo and Russel Maitland, conservation aides.

Starts Timber Cruise

Robert Rump, representative of the Pennsylvania Department of Forests and Waters, cooperating with the Adams Soil District, began a timber cruise on the Ira Naugle farm, Ortanna R. 1.

Drainage surveys were made by Richard Long, work unit conservationist, on the farms of Dr. Stephen Naylor, Gettysburg R. 4 and C. F. Clapsdale of New Hope, Pa. In a discussion on tile drainage it was learned from Thomas Cashman of York Springs that the tile he had installed early last summer enabled good footing for heavy machinery on an acre that previously was impassable due to poor drainage. Mr. Cashman said that 24 hours after an average downpour he was able to walk over this section.

Frank Glade Laughry, state soils scientist of State College, Pa., viewed a number of soils in the county and examined soil and erosion surveys with the Adams county work unit soil scientist.

Seagulls And Wild Geese Seen In County

Both wild geese and seagulls visited Adams county over the weekend and reports from Hagerstown and Frederick told of both types of fowl being sighted there late last week. Early Saturday morning local residents reported hearing wild geese honking as they wheeled over the town.

This morning Mrs. Julian Ray Clark, Gettysburg R. 4, told The Gettysburg Times that several flocks of wild geese were seen Sunday at her farm home north of Hunters-town. There was a flock about 6:30 a. m. and two other flocks later in the day. About 4:30 p. m., a flock of several hundred seagulls arrived and began to land on a rolling green wheatfield near the Clark home. Possibly mistaking the field for water, the birds discovered their mistake and went on to a small stream nearby.

The geese flocks paused only briefly and then continued their northern trip.

Father Bradley also expressed the desire to establish a regular meeting of the group and held many "breakfasts."

The toastmaster then introduced the speaker, Father Maher, who had as his topics "Morals are NOT the Moors" and the "Authoritative Church." Fr. Maher stated that "in those critical post-war years, in which we are witnessing a moral disintegration of the social fabric, America needs the help of Catholic principles expounded and lived by dynamic Catholic men and women. These principles are not based on the shifting mores, but on real morality, not on accepted customs but on the ten commandments. These principles

BULLETINS

Washington, March 27 (AP) — The Supreme court today upheld the contempt-of-congress conviction of Eugene Dennis, general secretary of the American communist party.

Dennis appealed to the high tribunal with the contention that a communist official could not get a fair trial before a jury which included government employees. Seven federal workers were on the jury which convicted Dennis. Justice Minton delivered today's 5-2 decision.

Justices Black and Frankfurter wrote dissenting opinions. Justices Clark and Douglas took no part. On the majority side with Minton were Chief Justice Vinson and Justices Jackson, Reed, Burton.

The contempt of Congress conviction was based on a charge that Dennis willfully disobeyed a subpoena to appear before the House Un-American Activities committee on April 9, 1947.

CENSUS TAKERS GO TO SCHOOL FOR FIVE DAYS

The 42 persons who will take the 1950 federal census in Gettysburg and Adams county started school today. Twenty-one started at 8 o'clock this morning, and the others will start this afternoon.

"School" is being held at the Moose home on York street. It will continue through Friday, with 21 attending morning sessions and 21 the afternoon periods. The census starts April 1.

The enumerators will receive about \$8 or \$9 per day, according to Laurence McCulloch of York, district supervisor. The pay is based on piece prices, so much per name, per farm, or per dwelling unit. Most of the enumerators will be employed from two to four weeks. They will be expected to complete their work within a limited period of time without regard to hours. Evening work will be necessary to reach occupants of dwellings who are away during daytime calls. No overtime will be paid, however. Enumerators in rural areas must furnish their own cars, but the method of payment and rate of pay provide for this expense on official census business.

200,000 Districts

As a whole, the 140,000 enumerators who will take the 17th decennial census of the United States will be one of the most widely travelled groups in the country during April, 1950. In covering the 2,977,128 square miles of land area in the continental United States they will travel an estimated combined distance equal to 1,000 times around the world, or 25 million miles.

For census purposes, the United States is divided into over 200,000 enumeration districts about two-thirds of which are in urban areas. In urban sections, the enumeration district may vary in size from a single apartment building to a scattering of detached dwelling over an area of 50 blocks. In rural sections, these districts will range in size from a few square miles to 2,000 square miles or more. In the open ranch country of the southwest and the sparse regions of the Rocky Mountain states, the enumerators will spend most of their working time travelling between dwellings.

The area now forming the 48 states and the District of Columbia was first completely enumerated in 1890. Today this area is divided into 3,070 counties which are further subdivided into about 52,000 minor civil divisions. Texas has the largest number of counties with 254 while Minnesota leads with 2,993 minor civil divisions (1940 figures).

The 1940 Census reported 16,635 incorporated places of which 1,210 were boroughs, 4,512 were cities, 6,387 were towns, and 4,526 were villages. There were 6,520 incorporated places of 1,000 or more population.

Hamelin Needs New Pied Piper

Hamelin, Germany, March 27 (AP) — The rats are back in Hamelin and the city fathers want a new Pied Piper.

Some officials claim the town, site of grain mills, has more rats per capita than any other city in Germany.

Ancient legend says that situation prevailed in 1284, when a Pied Piper tootled his flute through Hamelin and led the rats and mice to a watery grave in the river Weser. Every summer the fairy tale is dramatized here.

The legend also adds that the town refused to pay the piper his promised reward. In retaliation, he piped the town's children out of the city and all disappeared except two—one blind, the other lame.

A present-day piper will be most welcome if he can take care of the rats. He must promise to leave the children, who also have increased considerably in number.

Satisfy Lien; State Admits \$1,400 Mistake

The Penn Ceramic Manufacturing company of Aspers was granted authority last week by the State Department of Labor and Industry to satisfy a lien of approximately \$1,000 filed with the county prothonotary against the Aspers company allegedly for failure to make payments to the unemployment compensation fund.

R. W. Yarmark, vice president of the Aspers company, said that the state department informed the local company that not only was the lien unwarranted but that the company actually had overpaid \$400 in its unemployment compensation checks sent to the state.

The error occurred, Yarmark was told, because the state department had computed the amount due it at the previous year's rate of .027.

SAYS DRINKING CAUSED HIM TO SLAY SERGEANT

San Rafael, Calif., March 27 (AP)—A hulking Air Force sergeant said his face in his brief hands and said drinking was responsible for his strangling of an attractive woman sergeant.

With tears in his eyes, Sgt. Lyle H. Buswell, 32, then looked at his hands Sunday and added: "I had no reason to kill her. I had no motive at all. The only thing I can say is, it's drinking. It's just drinking and not having a home. I had been drinking all day and night. That must have been why it happened."

Buswell, a native of Vermont, confessed to FBI agents he killed 44-year-old WAF Sgt. Fairy E. Decker of York, Pa., Saturday at nearby Hamilton air base.

Confesses to FBI
Her almost nude body was found on a grassy knoll near the women's quarters about 4:30 a. m. Buswell denied any sexual assault on her. He insisted he had disarranged her clothing to give the slaying the appearance of a sex crime. An autopsy report from Letterman General hospital in San Francisco said she had been strangled and had bruises and lacerations.

Buswell was on furlough preparatory to going overseas. He gave a fictitious house number in Los Angeles as his forwarding address, but apparently remained close to Hamilton field.

His confession to the FBI related: He encountered Sgt. Decker in the orderly room of her barracks. She was on duty as a favor to another WAF.

Ordered Him To Leave
He asked if he could use the phone. She ordered him to leave after he failed to use it. Instead, he sat on the cot where she was resting. She was fully dressed except for her shoes and uniform blouse. She arose to lead him out. He came up behind her and—

"I choked her with my hands. I thought she was dead, so after carrying her out I took a blanket and covered her. I ain't got anything to live for now. I don't need a lawyer."

Buswell himself phoned military police that something was "amiss" near the WAF quarters. His father, Harry Buswell, in Rutland, Vt., said he was heartbroken. He said his son, one of six children, "always seemed to be a problem child and in hot water" but never before in serious difficulty.

The family of Sgt. Decker had no comment. They were reached in their home near the community of Jacobus in York county. She had been in the army eight years and was a clerk typist in the same office as Buswell. She was a spare-time Sunday school teacher. Sgt. Decker was estranged from her husband, Paul, 52, who said he was gassed in World War I. They were the parents of a 22-year-old son, Horace.

Straban Township Report Is Filed

Straban township spent more than it earned in maintaining its highways last year. The excess went for new tools and equipment, the annual township report, filed today with the county clerk of courts, showed.

The township began the year with a balance of \$9,132.34 and ended the year with a balance of \$6,289.47, but purchased \$3,125.11 worth of new equipment to aid in its road maintenance and improvement.

Total receipts of the township, plus the balance was \$21,220.66. Expenditures totaled \$14,931.19, including \$13,560.01 which was spent on the highways and including the figure for new equipment. Income included \$3,224.41 from current taxes, \$600 from beer and liquor licenses, \$1,030 from fines, \$4,306.60 from state aid and \$1,265.25 county aid.

The report lists as organization for boards during 1950: supervisors, J. Monroe Nell, New Oxford R. 2, chairman; R. P. Deatrick, Gettysburg R. 4, secretary-treasurer; James E. Ford, New Oxford R. 2 and Robert Trimmer, New Oxford R. 1, members; auditors, John K. Lott, Gettysburg R. 4, chairman; Walter E. Coshun, Gettysburg R. 5, secretary and Walter F. Bisons Edge Barons In Playoff Game

The Buffalo Bisons have a victory over the Cleveland Barons in the American Hockey league playoffs at last — thanks to a onetime Baron who came back to haunt his former mates.

The veteran Ab Demarco was a former Cleveland player, who was sold. Last night he scored the decisive goal that gave Buffalo a 3-2 victory over Cleveland and its first triumph in three playoff starts.

The goal came at 9:46 in the third period.

In the other playoff series between the Indianapolis Capitals and the defending champion Rhode Island Reds of Providence, the Capitals won, 6-1, at Providence.

Beats Jack Kramer In Straight Set

Philadelphia, March 27 (AP)—Richard (Pancho) Gonzales has enjoyed many a tennis victory but not many were so satisfying as yesterday's straight set triumph over big Jack Kramer in the singles final of the Philadelphia Inquirer's \$10,000 indoor pro tourney.

The swarthy 21-year-old Gonzales reigned as U.S. amateur king last year. His great play helped the United States retain the Davis cup. Since then he has turned pro, met pro-king Jack Kramer 91 times—and 71 times was the loser.

But yesterday he got some sweet revenge, when a lot of chips were down. Pancho picked up \$1,584 for his 7-5, 6-3, 6-3 win.

Dodgers Beat Yanks Again

Vero Beach, Fla., March 27 (AP)—The Brooklyn Dodgers have a knack of whipping the New York Yankees — when it doesn't count.

The Brooks have lost three World Series to the Yankees, but in the exhibition circuit, it's another story. The Dodgers whipped the New Yorkers, 11-8, again yesterday. It marked the sixth straight time Brooklyn has defeated the world champions in Grapefruit league play over a span of two years.

Giants, Bucs May Swap
Oakland, Calif., March 27 (AP)—The New York Giants can obtain Pittsburgh's diminutive lefthander, Vic Lombardi, for infielder Jack Lohrke.

Roy Hamey, general manager of Pirates, said yesterday he's anxious to swap. "I hear Durocher (Leo Durocher, Giant manager) wants a pitcher," Hamey said. "Well, we'll give him one and it won't cost him a penny. He can have Lombardi for Lohrke, even up."

Lohrke, utility infielder, never lived up to expectations with the New Yorkers. He hit .267 in 55 games last season.

Sisler May Land In Field
Clearwater, Fla., March 27 (AP)—Many theories have been advanced on the fate of Dick Sisler since the return of Eddie Waitkus to the regular first base job with the Philadelphia Phillies.

Now Sisler, who covered the first base position for the Phils after Waitkus was shot last spring, looks like he's headed for left field.

Since taking over that position last Wednesday Sisler has clubbed out 12 hits in 24 tries, including three home runs and two doubles.

He continued his stickwork against the Toronto Maple Leafs yesterday with three hits in five appearances at the plate, getting his third home of the training season.

Kellner Gets Going
West Palm Beach, Fla., March 27 (AP)—Battery Coach Mickey Cochrane of the Philadelphia Athletics believes work is the best remedy for a pitcher's arm miseries—but not overwork.

Alex Kellner was given the starting assignment against Buffalo of the International league yesterday to loosen up a slight soreness in his pitching flipper. He weathered a two-run blast in the third inning and by the fifth inning was feeling so good he suggested staying on the job.

But Cochrane vetoed the idea and Carl Scheib took over with the A's holding a 5-2 lead. A ninth-inning Buffalo rally won the game, 7-6.

BRADLEY, CCNY TO MEET AGAIN

New York, March 27 (AP)—Tomorrow night's battle for the NCAA basketball championship in Madison Square Garden will decide:

1. Whether Bradley or City College of New York has the country's best team.

2. Whether CCNY is great enough to win two national titles in the same year.

It's a rematch (10:15 p. m. EST) of the two teams that played in the exciting national invitation tournament final here nine days ago. CCNY's rampaging sophomores, riding a late season surge, upset favored Bradley in that one, 69-61.

Since then City College has won the eastern—78-73 over North Carolina State—and Bradley the western NCAA title—68-66 over Baylor.

This time the oddsmakers pick CCNY to repeat. They favor the Beavers by a slim 1½ points.

No team ever has won both the national invitation tournament and the national collegiate AA crowns in one season.

Sam Snead Takes Top Money At Greensboro
Greensboro, N. C., March 27 (AP)—Sam Snead has completed the cycle begun a year ago. The golfing great won the Greensboro open tournament, inaugurated a hot run in last year's Greensboro open tournament and hasn't cooled off yet.

Sammy made it two in a row and four since 1938 here when he breezed around the Sedgefield Country club course in 66-77 style yesterday to grab off \$2,000 top money in the \$10,000 event with a record-breaking 269 total.

Before a gallery, estimated at 17,000—a record for this winter's tour—by PGA Tournament Bureau Director George Schneider, Snead routed in a 10-stroke winner over runner-up Jimmy Demaret, Ojai, Calif., whose 71-66 finish gave him 279 and \$1,000.

Snead's latest win boosted his 1950 winnings to \$12,908, again topping the field.

American League Ump Holds Clinic

Forty-three umpires and team managers heard Jim Boyer, Baltimore, an American League umpire, give helpful hints on umpiring in a four-hour session Sunday afternoon at the American Legion home on Baltimore street.

The appearance of Boyer here was under the sponsorship of the Adams County Umpires association.

Boyer explained new baseball rules and answered many questions on trick plays and decisions given him by umpires and the team managers.

Sports Roundup

By HUGH FULLERTON, JR.

New York, March 27 (AP)—Word seeping in from southern sources is that the Southern Conference has given up hope of trying to select a commissioner this spring and won't try again until December. . . . Seems that nobody within the circuit can get the necessary two-thirds majority except possibly Col. Bill Couper of VMI and so far they haven't been able to agree on an outsider. . . . Couper repeatedly said he wouldn't take the job even if they "drafted" him. . . . No. 1 reason why the "Poughkeepsie" regatta will be held in Marietta, O. from now on: When the I. R. A. stewards saw their choice between 50 years of tradition and an observation train, they were smart enough to choose the one that would bring in some dough. . . . Probably the busiest guy in upstate New York these days is Councilman-Coach Roy Simmons of Syracuse. His lacrosse team opens against Kenyon today; his boxers go in the NCAA championships Thursday and there's always city council meetings.

ON THE LOOSE
The Indiana U. freshmen footballers were drilling against the varsity the other evening when Pete Russo, frosh tackle from Ambridge, Pa., (and a whale of a prospect) managed to run through a play without touching any opposing player. . . . Line Coach Steve Sinko took out after him demanding: "Just who do you block on that play?" . . . Russo put on an innocent look and replied: "Oh, I just pick up the strays."

MONDAY MATINEE
Did you ever notice that Don Newcombe, the Dodger flinger, keeps the ball in his glove while he takes his full windup and stretch and then transfers it to his pitching hand when he raises his arms to begin the pitch? We didn't, but Ed Barrow called attention to this quirk and added that the only other pitcher he's seen who does the same thing is the Yank's Allie Reynolds.

Santa Clara U. finds an omen of some sort in the fact that its new coach, Dick Gallagher, signed his contract on St. Patrick's Day.

Buffalo, N. Y., March 27 (AP)—Ezzard Charles and Freddie Beshore ended heavy training today to taper off for their NBA heavyweight title bout here Wednesday. Both agreed that a month's delay may have helped a little.

The 15-round fight originally was scheduled for Feb. 28. However, it was postponed Feb. 24 to allow Charles to recover from a reported cracked rib.

State College, Pa., March 27 (AP)—Pottsville is the PIAA gymnastics titleholder. The Schuylkill county school won every event except the slide horse and tumbling competition Saturday, scoring 39 points.

Lower Merion was second with 28½; Conemaugh third, 9; Ellwood City, fourth, 8½; Lock Haven fifth, 3; Nesquehoning sixth, 2.

Collegeville, Pa., March 27 (AP)—Raymond Gurzynski has been moved up from assistant to head football coach at Ursinus college. He succeeds Kuhrt Wieneke who resigned. The Bears won only one game of seven last year. Gurzynski will continue as track coach. Wieneke will remain on the faculty and continue to coach wrestling.

San Francisco, March 27 (AP)—Big Ralph Kiner, the National league's highest-priced baseball player, still is troubled by a two-week old wrist sprain and the Pittsburgh Pirates high command admitted today it has them worried.

The right-handed socker who slammed 54 homers last year injured his right wrist in a collision during a March 14 exhibition game against the Chicago White Sox. He batted yesterday for the first time, hammered one practice pitch over the fence, but admitted later that he hadn't been able to follow through properly.

Vancouver, Wash., March 27 (AP)—The abduction slaying of 18-year-old Jo Ann Dewey spurred police search here today for two men who carried her off in a black sedan.

The girl's unclad, battered body was found yesterday on a rocky bar in the Wind river, 44 miles east of here in a forested canyon. City Police Chief Harry Diamond said clues in the most shocking crime here in recent years were scant.

SWOYERSVILLE, CLASS B TEAM, TITLE FAVORITE

Harrisburg, March 27 (AP)—Swoyersville's hopes of becoming the first Class B school to win the Class A PIAA basketball title reached a high peak today.

The Sailors defeated Allentown, 59-39, Saturday in an eastern semifinal to become heavy favorites to become the next Class A state champions. That would be the first time in the 30-year history of the playoffs that a Class B school has topped the high honors.

About four months ago he was tendered a position as teacher in the Soldiers Orphans' School at McAllisterville. Recently fever of a typhoid character developed itself at the school, a number of pupils being taken down with it, with fatal results in some cases. Mr. Culp remained at his post, sharing in the nursing and attention of sick pupils. About three weeks ago he was attacked by the prevailing fever. On the 19th, his sister (Mrs. Blessing) went to McAllisterville to minister to him. On Sunday his father received a telegram announcing that his son was very ill, and he started at once for McAllisterville, but before he reached there a second telegram was received by the family, announcing

BRAVE PEOPLE

In this place recently I gave praise to that wonderful organization, the A. A. (Alcoholics Anonymous). I did this because of the widespread good that this organization is doing in rebuilding and regenerating thousands of human lives.

I have been receiving many letters from members of this organization, and each one has increased my admiration for the work that is being done to bring back health and happiness to those who have had the will and the courage to say, as did the Prodigal Son in the Bible story—"I will arise and go to my father, only in a different language. Perhaps this one, 'I will arise and be my manly and womanly self again.'"

One reader has written me that there are those who look upon being a member of this marvelous organization as "degrading." I cannot agree. It is degrading for one afflicted not to belong! Only one who has suffered can understand the suffering of another. The power of resolve—though it may leave us for a spell—when united with that of others, becomes a boon, precious to all alike.

In that remarkable little book "The Power Within Us," by Daniel Long, I came across this line: "To understand what it means to have nothing one must have nothing." Only an alcoholic knows what it means to be one, so that only intelligent, brave people in this condition can know what it means to be associated with those who understand, and who seek anew for sobriety, peace of mind, and a new hold on happiness in life.

There is another wonderful line in that little book from which I have quoted. Said the writer: "The power of maintaining life in others lives within each of us, and from each of us does it recede when unused." In the A. A. this magic power works in mutual fashion. Each helps to heal the other. As one reader has written to me, the A. A. is "Group therapy at its best." I agree. And right here I must write my favorite motto: "He climbs highest who helps another up."

Tomorrow Mr. Adams will talk on the subject: "Critics."

KEYS TO THE CAR
Each age, as every older knows, Has its distinctive cares and woes. That rich or poor may never be From small vexations wholly free.

Back in the horse and buggy days, A fuss my father used to raise Because when starting on a trip He found that he had lost the whip.

At other times, harsh words he'd say

To find the horse had run away. Grown tired of waiting at the store, He'd galloped to the stable door.

But time has changed such woes as these.

Instead of whips, we're losing keys, And very strange the places are Where slip the keys to start the car.

No age without its share of woe. No one a care-free life to know. No whip to lose; no horse to stray; It's car keys that we lose today.

The ladies who claim that the Fourteenth Amendment to the Constitution confers upon women the right of suffrage will be pained to learn that the Supreme Court of the United States is unanimously against them. On Monday Chief Justice Waite made a decision in a case that presented this point, which leaves the women suffragists not a single splinter of a plank to stand upon.

The "Graeff Prize Essay" on J. Rodman Drake's fanciful poem, "The Culprit Fay," was read in the College Church on Tuesday night before a pretty full house by the author, Mr. James McConaughy, of the class of 1875. Rev. Dr. Kieffer made the opening prayer, the choir of the church furnished choice music. The essay has been printed and a copy laid on our table. It is a creditable production, was awarded the prize for excellence in "general style and composition and thought."

'TOP SPY' CHARGE IS DERIDED BY OWEN LATTIMORE

Washington, March 27 (AP)—Owen Lattimore decided today as "pure moonshine" Senator McCarthy's charges that he is Russia's top spy in the State department and the United States.

Lattimore, an expert on Far Eastern affairs, cabled the Associated Press from Afghanistan where he is on a United Nations mission. He said he would be home in a few days and promised to answer the charges in detail then.

McCarthy, Wisconsin Republican, had described Lattimore privately to newsmen as "the man—connected with the State department—whom I consider the top Russian espionage agent in this country." This information was made public last night in a radio broadcast.

Lattimore, replying to a request for comment from the Associated Press last Friday, said in his cable: "McCarthy's off record rantings pure moonshine. Delighted his whole case rests on me as this means he will fall flat on face, stop. Exactly what he has said on record unknown here so cannot reply in detail but will be home in few days and will contact you then."

Mrs. Lattimore, residing in Baltimore, flatly denied McCarthy's earlier public charge—made on March 13—that her husband is pro-communist.

Lattimore, 49, is director of the Walter Hines Pate School of International Relations at Johns Hopkins.

Last night columnist Drew Pearson, on his weekly radio broadcast, named Lattimore as the man McCarthy accuses of being the Soviet Union's chief spy in the United States. Pearson added: "I happen to know Owen Lattimore personally—and I only wish this country had more patriots like him."

McCarthy's charges of communists and fellow travelers in the State department are being investigated by a Senate foreign relations subcommittee. He has said he is willing to let all of his charges against the State department stand or fall on the outcome of the Lattimore case.

ELEPHANT KILLS BOY, 5, AS HE FED PEANUTS TO HER

Sarasota, Fla., March 27 (AP)—A little boy feeding peanuts to circus elephants was killed yesterday when one of them suddenly whipped her trunk around him, dashed him to the ground and stepped on his head.

By the time attendants could make Big Dolly move her foot, five-year-old Roger Schooley was dead. He had been snatched from the side of his mother, Mrs. Elmer Schooley, of Las Vegas, N. M.

The Schooleys had taken Roger and his brother David, 6, to the winter quarters of the Ringling Bros. Circus and Bailey Circus for a last look at the animals before the big top moved on to New York for its 1950 opening April 5.

Boy Ducked Under Rope

The two youngsters were tossing peanuts to the chained elephants when one of the gentlest, 27-year-old Dolly, made the fatal grab with her trunk.

J. D. Brown, a circus watchman, was attracted by screams. Dolly made no attempt to harm him as he made her move her ponderous hoof from the child's body.

Arthur Concello, general manager of the circus, said he was told the boy ducked under the guard rope to pick up some peanuts he had dropped. Apparently the elephant became excited "like a dog when someone takes a bone away from it," he speculated.

The manager said Dolly would not be taken on the road with the rest of the circus. She has been chained apart from the rest of the herd.

State Attorney W. M. Smiley is checking the possibility of criminal negligence.

SPRING JOBS IN GARDEN MOUNT

Start working the soil in the garden if a lump squeezed in the hand crumbles when dropped from a height of 12 to 15 inches. If it remains a solid lump, cultivation must be postponed until the soil becomes dryer.

A thorough preparation of the soil is necessary to obtain an abundant vegetable crop. The soil should be spaded to a depth of at least six inches, deeper if possible. A soil which is free from lumps and is leveled provides ideal basic conditions for starting all crops. For the rapid development and maturing of plants, add complete plant food.

Since perennial lawn grasses are cool-weather growers, repair of winter injury of the lawn should be one of the gardener's earliest spring jobs. Start feeding the lawn Reseed thin and bare spots. Scatter the seeds evenly at the rate of one pound to each 400 square feet.

Plant roses as soon as the ground can be worked, so they will become established by the time hot weather arrives. The holes should be large enough to accommodate all roots without crowding. Bruised and damaged roots should be pruned.

Dormant shrubs and hardy vines should be planted as soon as planting holes can be prepared; also all kinds of hardy perennials which will make strong root growth before the arrival of warm weather.

Flower seeds suitable for indoor sowing now are: gaillardia, delphinium, salvia, vinca rosea, lobelia, dahlia, annual campanula, snapdragon, verbena, heliotrope, lantana and torenia.

Just before the leaves expand is the best time to rid all trees and shrubs of tent caterpillars. Scrape them off with a stick and drop them in kerosene or burn them.

Transplant evergreens when the buds begin to swell.

Set out lily-of-the-valley clumps now. The tops of the plants should be just even with the ground.

Give the asparagus bed a dressing of complete plant food.

Trim the privet hedge before it begins to grow.

Repair and paint garden fences and arbors before vines start to make new growth.

Shade choice broadleaved and other evergreens from the bright sun and strong winds.

Seamstress Slain By Unknown Gunman

Pittsburgh, March 27 (AP)—An unknown killer shot down a 38-year-old seamstress and left her body lying in pool of rain water last night on a Northside sidewalk.

Miss Josephine Sanfilippo, casket company seamstress, died in a hospital about 15 minutes after a passerby found her unconscious near the West End-Northside bridge. She had been shot behind the right ear.

You Can't Be Too Careful In Sowing Garden Seeds

Beans Can Be Sown in Pairs, Properly Spaced, to Insure a Good Stand

While seed sowing is not a precision job—especially when nature does it—gardeners soon learn that much can be saved if it is done with some skill and judgment.

If sown too thinly, there may be vacant spaces in the row, caused by local mishaps such as drowning, or washing out, or an attack of fungus. If sown too thickly, seedlings will come up crowded, and there will be extra work in thinning out the excess plants.

Some seeds are often sown so thickly that 90 per cent of the plants must be sacrificed, in order to give the remainder room enough to mature. This is waste of both seed and labor. Then what will serve as a guide to follow?

As a general rule, not more than fifteen seeds to an inch should be needed, when seed is of standard germination, and the soil is fairly porous. Start with that rule, and then make these exceptions:

If seed is of sub-standard germination, or known to be old, double that rate. Carrot seedlings are feeble, and often have difficulty breaking through the soil if it is at all inclined to crust. Use twice as many.

Police said the victim might have been robbed by her slayer. Her purse, containing a few dollars, is missing. She was shot while walking to her Northside home from a nearby bowling alley where she customarily spent Sunday evenings bowling with the Italian Sons and Daughters of America.

The National Geographic Society says a native bride in New Guinea costs about \$600.

SALSIFY FOR HOME AND MARKET

One of the unfathomed mysteries about American appetites and gardening habits is found in salsify, often called oysterplant. Here is a vegetable of unusual goodness, far surpassing carrots and parsnips in flavor, texture, and all-round edibility. It is the hardest of all vegetables, actually improving when left in the ground to freeze over winter. It suffers from few diseases and insect enemies. It is extremely easy to grow and very inexpensive in terms of culture and labor in relation to yields. Yet, salsify is grown in comparatively few gardens and is among the least emphasized vegetables for marketing. Rarely, indeed, are roots available in grocery stores and urban produce markets.

There are several popular vegetables which can be eaten in but one or two ways. Take a radish for example. There is nothing you can do with a radish but to serve it raw. It cannot be creamed or fried, it is unusable in stews, nobody ever makes radish soup or soufflé. But radishes are grown in all gardens and can be purchased on all vegetable markets.

Likewise consider salsify. Few vegetables are so useful in soups and stews, imparting a flavor so like oysters that the plant has been so named. It is delicious boiled and cut into small pieces and creamed like asparagus. Or it is incomparably tasty boiled, cut in long strips and browned in butter. Likewise it is excellent boiled and made into cakes after washing, these rolled in bread or cracker crumbs and fried in deep fat like oysters. In the last cited method, salsify readily serves as a substitute for oysters. It is facts like these that make salsify a mystery.

This vegetable requires a long growing season. It is hardly against frosts at the beginning of its growth and remarkably resistant even against freezing weather after maturity. These facts add up to the suggestion that seed be sown as early in March as soil conditions permit, although roots for all-winter use or sale may be grown from seed sown as late as April 20 to 30. But later sowing is seldom advisable, lest the roots may lack sufficient time to mature fully before cold weather arrives in the fall.

It is necessary to sow seed directly in the row where the crop is to grow, as seedlings do not transplant readily. However, extra early plants may be started in individual paper pots in a hotbed or coldframe and set out without disturbing the roots. This type of early culture calls for sowing seed at this time and moving plants to their growing site after they are well started in late April. But in most cases seed should be sown directly in the row around March 10 to 25 for early roots and no later than the third week in April for the main or winter crop.

Salsify demands an alkaline soil, deeply mellow and well drained. Well rotted and finely pulverized manure

improves most loams for this vegetable, turned under to a depth of at least eight to 12 inches. Too, fertilizer ranging from a 4-10-10 to a 6-8-0 or similar composition should be broadcast and worked uniformly into the top soil in advance of sowing seed, preferably at the rate of 1,000 pounds per acre.

To insure a good stand of plants, seed should be sown at the rate of one ounce to 100 to 125 feet of row. Later plants should be thinned to stand about 2½ to three inches apart. Rows may be 18 inches wide for hand tillage.

The late crop, as already suggested, may be left in the ground and harvested over winter as needed. But to bridge periods of inclement weather when digging the roots

Small, Giant Zinnias Good As Cut Flowers

Whether to grow giant zinnias for cut flowers or select some of the types with smaller blooms is a personal matter.

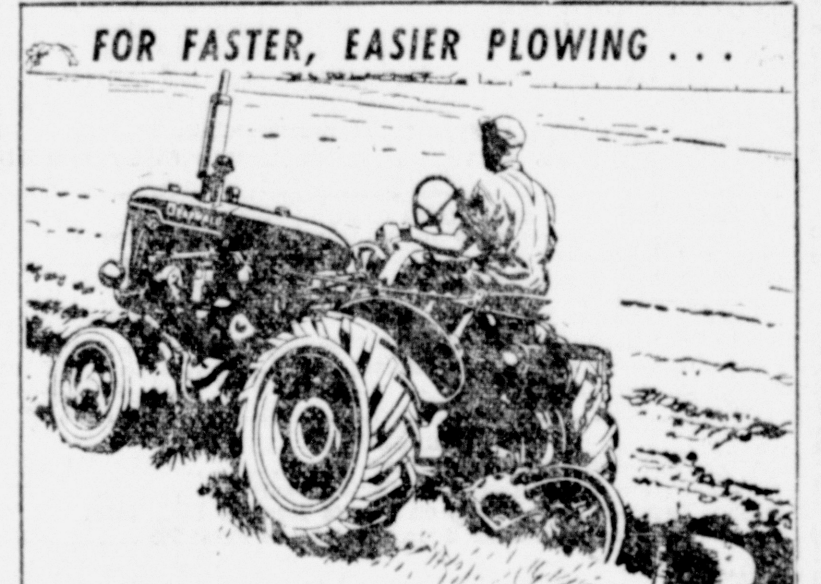

The type many people prefer for cutting is called Cut-and-Come-Again. Its flowers are fully double and measure about 2½ inches across. The plants grow 18 inches tall, are much branched and carry flowers from mid-summer until frost. Some seed houses carry as many as 12 different colors, so that the gardener has a wide choice in selecting those which he prefers for his color combinations.

They are good, too, for garden display.

LOWEST TAX RATE

Norristown, Pa., March 27 (AP)—Montgomery county claimed again today the state's lowest tax rate. The county commissioners have fixed the rate at 1½ mills, the same level which has been maintained

would be difficult, a supply should be taken up in late fall and stored in moist sand in a cool basement or cellar.
